OUR MISSION

Slow-cooking revolution.

OUR PROMISE

*Your secret partner
in fine dining, hassle free.*

A FEW HINTS ABOUT OUR MEAT

Every product we create is of exceptional quality.

Perfectly cooked:

Slow cooked, under perfectly controlled temperature.

Homogeneous, keeping meat moisture and making it juicier and tender.

Enhanced flavor as seasonings and marinades are sealed with the meat, infusing it with flavor during cooking and storage.

Easy to use by the final consumer.

All our products are fully cooked.

Perfectly safe:

No risk of bacterial growth – due to temperature control.

Perfect hygiene – the product remains inside the vacuum foil, eliminating any risk of contamination until the final moment of usage.

Long chilled shelf life:

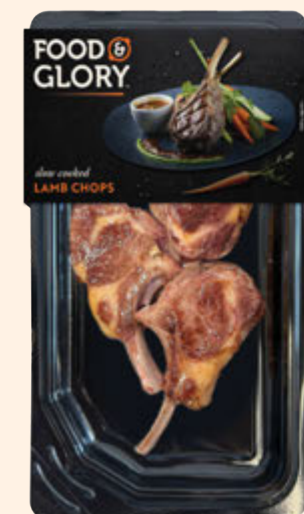

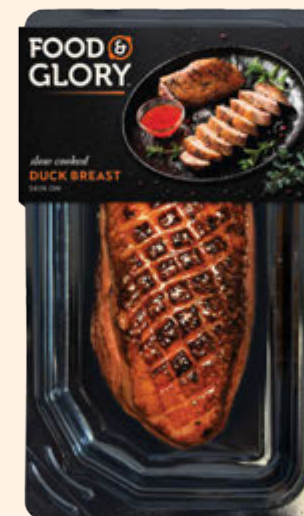

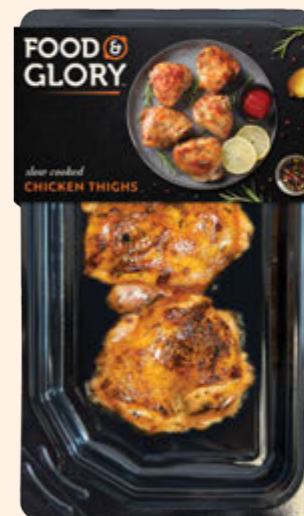

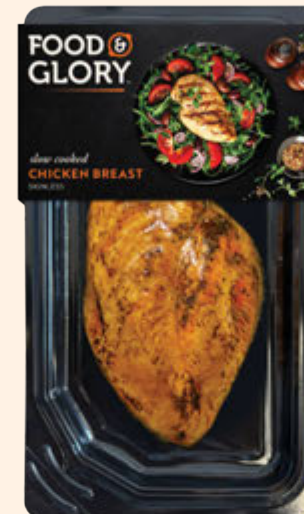

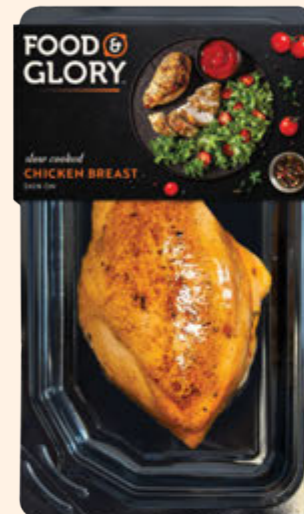

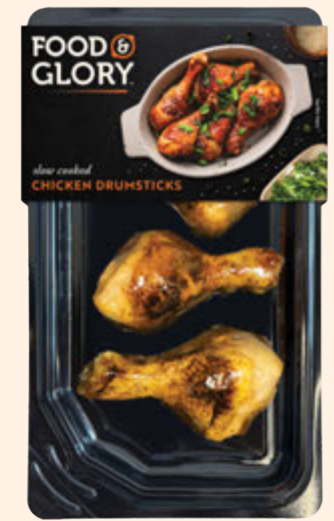

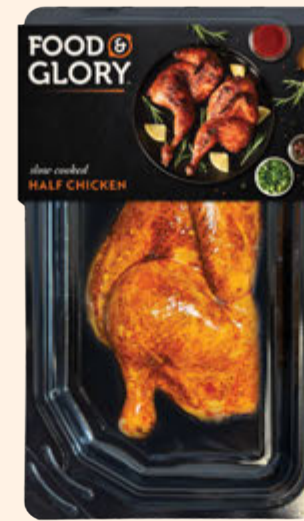

Vacuum skin packaging maintains the quality of the food, extending shelf life to 30-45 days.
